

In re of: COUDURIER2

**Amendments to the Specification:**

Please replace the paragraph at page 1, lines 8-15 with the following amended paragraph:

For many years, significant efforts have been developed in order to facilitate the daily preparation of meals. Among the notable progress, coatings based on fluorocarbonated polymers as ~~adhesive~~nonstick coating in kitchen utensils quickly developed since the end of the 1950's. Such coatings is universally known since the process presented in the patent FR 1120749 allowed a reliable attachment of such coatings on various metals, such as aluminum.
